

ZT702 rH Transmitter

Introduction

Ztech's ZT701 rH Transmitter converts Relative Humidity to 4-20mA. It's specially design for HVAC Application.

Features

- Input : rH (Honeywell Sensor)
- Output : 4-20mA at 500 ohms Loading Capacity
- Accuracy : 3% of FS
- Power : 24VDC
- Temperature : -10 to 55 degc.
- Humidity : <95% RH non condensate
- Weight : 100 gms. (As per the model)
- Enclosure : ABS plastic
- Dimension : Din Rail 25(W)*75(H)*110(D)mm (Din Rail)
- Mounting : Din rail, Wall

Application

- HVAC Application
- Humidity Monitoring and Controlling Systems

Ordering Code

- ZT702-XXXXXXXXXX (10 Digit Code)
- Option 1:Input Signal**
0 - rH
- Option 2:Display**
0 - Blind
1 - LED Display 4 digit
- Option 3:Enclosure**
0 - None
1 - Din Rail
2 - WP proof wall mounted
3 - Flame proof 2" field mounted
4- Special Enclosure
- Option 4:Power**
0 - 24VDC
- Option 5:(X)**
0 - None
- Option 6:(X)**
0 - None
- Option 7:(X)**
0 - None
- Option 8:(X)**
0 - None
- Option 9:(X)**
0 - None
- Option 10:(X)**
0 - None
